SMALLPOX.

Meeting in the Commissioners' Office. This morning at 10 o'clock the members of the board of health met in the committee of councils and a number of influential citizens met the county commissioners in their office in the court house to confer as to what is best to be done to crush out the smallpox which has recently obtained a foothold in our city.

It is fully expected, on the part of the board of health, that before the coming evening, and said that more stringent measures than any yet taken were necessary to stamp out the disease.

He urged upon the commissioners the necessity of erecting with all possible dispatch, a hospital in which to treat infectious and contagious diseases.

In accordance with a request made by the commissioners at a meeting convened the board of health and the sanitary committee had prepared the plan of a hospital which could be erected at an estimated cost of \$4,900.

The plan was made gratuitously by Mr. Dinkler, from suggestions made by the board of health, the sanitary committee and several physicians.

It contemplates a brick structure 70 feet long, 39 feet wide and two stories in height. The basement consists of a kitchen with a cellar on its side of it.

The first floor is divided into nine rooms on one side, and four larger ones, for convalescents, on the other. The second story is laid on the same plan.

Each room has a window and the whole building is well-ventilated. The partitions between the several rooms are only high enough to prevent patients in one room, or stall, from seeing patients in the others.

Plan but comfortable furniture would be needed, and the hospital could be used not only for poor people, but for others who would rather go in and pay for their board and medical attendance than live at home in their own homes.

Commissioner Hildebrandt did not believe that the building described could be built and made fit for patients in thirty days, nor did he believe that any but paupers would go into it if it were built.

Mr. Hildebrandt thought that if a temporary hospital was got up nothing more will be necessary, as the smallpox will have been rooted out before the permanent one can be erected.

George Nauman said there can be no doubt of the necessity of a hospital at this time, as the disease is spreading so rapidly in this city.

Commissioner Summy asked whether the county commissioners could not be held liable for its cost, provided the grand jury did not sanction their action.

Mr. Nauman said they would; but that no grand jury would under the circumstances, fail to sustain the commissioners in an emergency such as this.

Mr. Fulton concurred in what Mr. Nauman said and added that the judge of the court had said that he would favorably mention the matter in his charge to the grand jury.

Commissioner Myers said that he was not willing to draw at his part of the responsibility and would vote for the erection of the proposed hospital.

Mr. Hildebrandt thought that if an additional building was necessary a frame one might be put up at once for \$500 or \$1,000. It would be necessary to run the county necessarily into debt.

Commissioner Myers offered a resolution to the effect that the board of county commissioners at once advertise for proposals to erect a building on the plan and specifications described by Mr. Dinkler, to be finished in 30 days, and that the bids be opened on Friday next.

Commissioner Hildebrandt said he was not ready to vote on that resolution while the crowd was present, unless it was proposed that they should have a vote in the matter.

The meeting then dispersed. The commissioners consulted for a short time and then adjourned until 11 o'clock.

The commissioners reassembled at 11 o'clock in their office and adopted the resolution offered by Mr. Myers. Mr. Summy and Mr. Myers voted affirmatively and Mr. Hildebrandt in the negative.

The following was the proposition offered and supported by Mr. Hildebrandt: "Resolved, That the commissioners of the county of Lancaster do hereby agree to appropriate one thousand dollars, or as much thereof as may be necessary, to erect a temporary hospital on the county grounds, the board of health to have power to construct the same according to the views of the board of health."

The advertisement for proposals for the erection of the building will be found in our advertising columns.

The Telephone Men. The situation of the telephone company is becoming very serious. A feverish feeling exists in the telephone company over the threatened strike. Every person interested is anxiously awaiting the result of the meeting of the executive committee of the Western Union directors which is to convene to-day to consider the demands of the operators of the Brotherhood of Telegraphers. What that result will be cannot yet be predicted.

The committee of the brotherhood held a meeting early this morning, but what transpired there could not be ascertained. Several dispatches were received by the committee from various points stating that operators are in readiness to leave their desks at a moment's notice. It was said that "every means would be taken to render the strike a general one, and in this event only will it be successful."

W. B. Somerville, of the Western Union company, said to-day that there seemed "to be little possibility that the company would grant the request and that the operators would be obliged to make the demands were unjust and unreasonable and if the strike should happen, the company would fight it to the bitter end."

Mr. Dwyer, manager of the operating room of the Western Union, said he did not believe a strike would be commenced without mature deliberation. To inquire into the grievances. The Western Union executive committee this afternoon appointed a committee consisting of ex-Governor Cornell, J. W. Glendon and John T. Terry, to inquire into the grievances of the operators.
